

Pipelayer – TYBO Contracting

Lower Mainland, British Columbia

Are you a dedicated, hardworking professional looking to build your career with a growing company? Join **TYBO Contracting** as a Pipelayer!

Pipelayers play an essential role in the successful installation of underground utilities and the day-to-day production of civil construction crews. The successful candidate will demonstrate strong technical skills, attention to detail, and the ability to work safely and efficiently in a team environment.

As a Pipelayer, you will be responsible for supporting production in the trench, ensuring underground infrastructure is installed accurately and to grade, and helping maintain a safe and organized work site.

Core Responsibilities

- Drive production and productivity of the crew
- Lead by example and support the development of Labourers and Junior Pipelayers
- Mentor and train less-experienced crew members
- Direct and communicate effectively with equipment operators
- Read and interpret site plans and construction drawings
- Identify different soil types and understand appropriate excavation practices
- Ensure proper bedding and gravel placement around pipe prior to backfill
- Maintain a clean, organized, and safe work area
- Follow all TYBO Contracting health and safety policies and procedures
- Communicate effectively with supervisors, operators, and other crew members
- Assist with the coordination and completion of daily site activities

Qualifications

- **Experience:** Minimum 2 years of pipelaying or underground utility experience
- **Education:** High School Diploma or equivalent
- Physically fit and capable of performing high-intensity construction tasks

- Ability to lift and carry up to 50 lbs
- Ability to work outdoors in varying weather conditions
- Valid driver's license is considered an asset
- Ground Disturbance Level 2 is considered an asset
- Confined Space certification is considered an asset
- Fall Protection certification is considered an asset
- First Aid certification is considered an asset

This role may include tasks requiring respiratory protection. Employees must be clean-shaven where required and be able to successfully complete fit testing for half-mask or full-face non-powered respirators in accordance with applicable Provincial OHS Regulations and TYBO Contracting safety policies.

Willingness to work flexible hours, including overtime, early mornings, evenings, and weekends when required to meet project schedules.

Technical Skills

- Understands the proper setup and use of pipe lasers
- Can read and interpret basic site plans and construction drawings
- Installs underground pipe accurately to grade, including PVC, HDPE, and concrete pipe
- Understands proper trenching, bedding, pipe installation, and backfill procedures
- Understands and follows proper rigging procedures
- Able to select and safely use appropriate rigging equipment, including slings, clutches, shackles, and related accessories
- Experience installing and setting manholes and catch basins
- Experience working around existing underground utilities
- Able to safely expose, support, and protect buried utilities
- Understands grade, elevations, benchmarks, and basic survey information
- Able to identify potential hazards and communicate concerns to the supervisor
- Familiarity with underground utility installation and civil construction practices

Interpersonal Skills

- Motivated, dependable, and safety-focused
- Demonstrates leadership and takes initiative on site
- Strong organizational and problem-solving skills
- Effective verbal and written English communication skills
- Ability to work effectively in a team environment

- Professional and respectful attitude toward coworkers, supervisors, clients, and subcontractors
- Results-oriented with a strong work ethic
- Takes pride in quality workmanship
- Ability to work independently while also contributing to the overall success of the crew
- Willingness to learn new skills and take on additional responsibilities
- Desire to grow and advance within TYBO Contracting

What You Can Expect at TYBO Contracting

- Competitive wages and compensation packages
- Extended health and benefits packages
- Opportunities for overtime
- Training, development, and mentorship opportunities
- Opportunities for career advancement
- A supportive and team-oriented work environment
- Steady work and opportunities to develop your skills
- Team building and company social events
- A strong focus on safety and quality
- Opportunities to work on a variety of civil and underground infrastructure projects
- A company culture that values hard work, accountability, and its employees

Only candidates located in the Lower Mainland of British Columbia will be considered. TYBO Contracting does not currently offer camp or LOA accommodations.
